

For People who demand Availability, Better Value and Smart Prices

D2060 MODULAR PANEL SYSTEM

RIVIERA

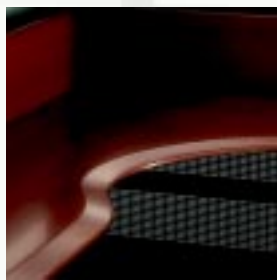

THE BACKGROUND

Riviera has manufactured quality office furniture for over 65 years. Using state of the art production methods and the highest quality veneers, laminates and steel, Riviera produces office furniture for the international market. Riviera's factory employs over 1000 people, and occupies a manufacturing facility covering more than five hundred thousand square feet.

Riviera's products evolve from in-depth research into the requirements of the modern office. Riviera strikes just the right balance between aesthetics, design, and of course... value.

Riviera's corporate office is located in New York's A&D building. Our selected dealers offer the best service and delivery available.

A Panel System where Function, Elegance and Ergonomics are Synonymous...

D2060 MODULAR PANEL SYSTEM

RIVIERA

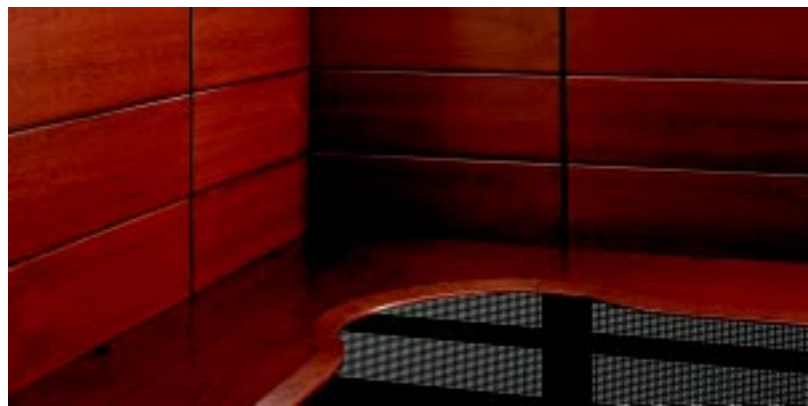

T H E S K I N

Under a large choice of finishes to satisfy the most demanding of clients, the 2060's steel structure can hold a surprising number of communication channels which are easily installed at any level.

CHOICES, FOR

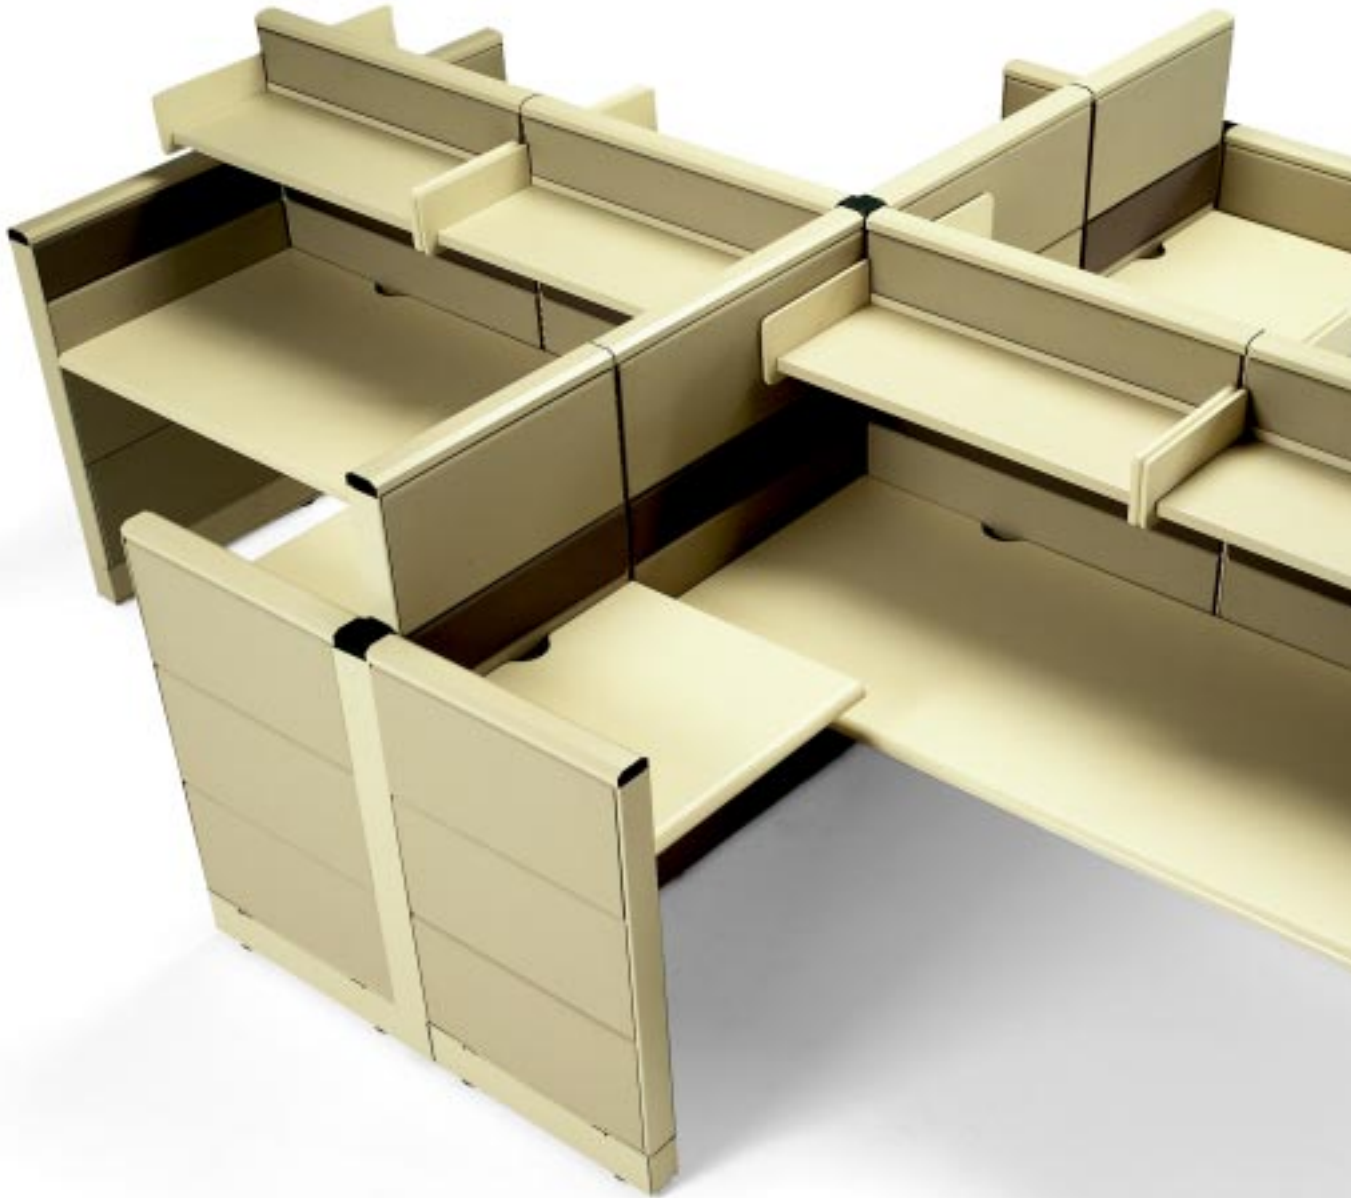

Black PVC surfaces and perforated steel tiles, or cherry veneer and warm colored fabrics, or almond colored laminates, or maple surfaces, or glass tiles, or... the palette is endless. Your selection is limited only by your imagination and your creativity.

IMAGINATION AND CREATIVITY

BASIC PRACTICALITY

Work-friendly panel heights create a productive environment while reducing noise level. Shown here : four 30" x 72" rectangular work surfaces in almond PVC with a return for your printer or scanner. Add some open storage shelves. The result : good clean design, harmonious colors, smooth edges and plenty of room to work.

Place the work surfaces at the height you need, place your voice/data outlets where you want them, add an accessory rail or a tackboard...

This layout allows 4 professionals to comfortably fit into less than 120 sq. feet.

TELEMARKETING, ETC.

Comfortable curves, appealing colors and low panels encourage open communication... choose Riviera systems for a more productive environment.

Laminate tiles, a flexible communication system and unparalleled access to outlets. Riviera has it all !

A simple unit, designed for eight people, fits comfortably into just 120 square feet.

H I G H - T E C H , S T E E L A N D S T Y L E

For a high-tech look, select black PVC work surfaces complemented by perforated steel tiles in an aluminum finish. Window tiles and hanging storage units with pneumatic steel doors complete this workstation.

Riviera's state-of-the-art perforated steel tiles allow for air circulation. Matching storage units with pneumatic doors add that extra touch of design.

FOR EXECUTIVE ONLY

This U-shaped executive office is composed of a wing table and an ergonomically shaped corner and return. Shown with black steel doors on the overheads, Biedermeier cherry tiles and a K-Series storage cabinet.

Precision craftsmanship
Accessory rail
Matching table (Athena Collection)

Make your workstation a more inviting place when you replace a solid panel with a full size window or modular glass tiles.

F O R P E O P L E O N T H E G O

Offices for people who are always on the go : full height panels, glass windows, a selection of storage modules and accessories offered in a wide array of colors and finishes. Together 2060 System components make a work environment you'll want to return to.

Choose between laminate, wood veneer or glass doors. Customize your work place with practical accessories and storage modules.

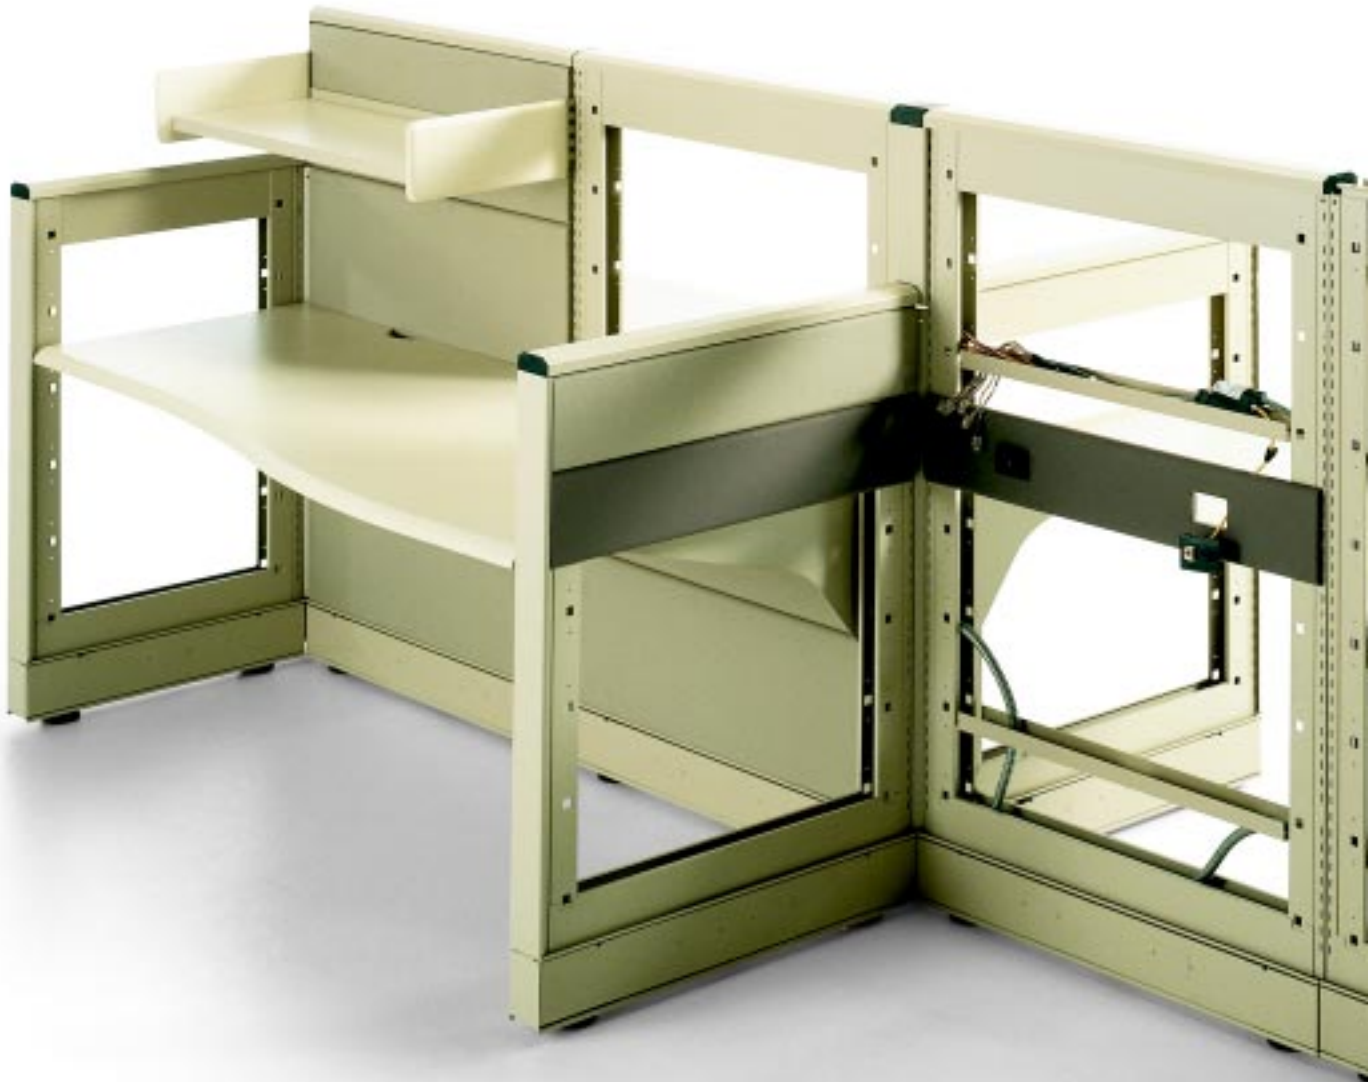

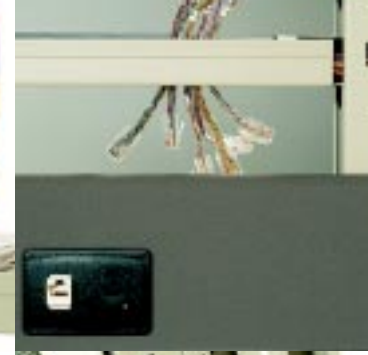

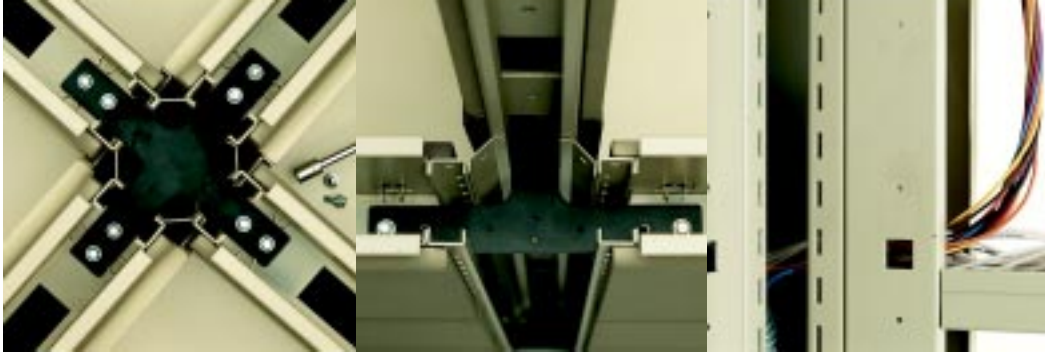

A sound proof, well lit work space where your files and belongings await your return... The 2060 System from Riviera lets you create those hoteling configurations used by leading corporations.

THE INSIDE STORY

The 2060 System from Riviera is a user-friendly system that's both efficient and flexible. A logical choice, easily assembled and quickly modified.

Riviera's unique structural framework allows you complete freedom to manage power and communication cables. Voice/data cables can be dispatched at any height and can accommodate most of the electronic modules on the market today.

In accordance with its policy of continuing product improvement, RIVIERA reserves the right to change engineering, design, dimensions or specifications without notice.
